# About the Junior Professionals & Executives Group (JPEG)

JPEG is a young professionals network created to help legal and financial professionals under 40 years of age gain exposure, and opportunities to career-building relationships through mentorship, collaboration with peers of all generations, as well as professional development and leadership opportunities.

JPEG was launched in August 2013 and currently has over 150 members, and is the second largest practice group in the ALFN. JPEG helps young professionals who may need direction toward volunteer opportunities and networking at the national level where the competition is fierce for the few slots that offer career development, exposure and positioning. JPEG coordinates networking mixers, regular teleconferences, webinars, and publishes an annual profile of emerging leaders, while operating as a platform for young professionals to access other leadership roles within the Association and to position themselves as subject matter experts through authorship and education.

JPEG was awarded a Gold Power of A award from the American Society of Association Executives (ASAE), recognizing JPEG as one of the most innovative association programs in the country.

## About Picture the Future

The Picture the Future program is one of the ALFN's most highly sought after opportunities, and the competition gets tougher each year. All nominations were received during a two-week period from attorney-trustee and associate members, as well as from mortgage servicers. Individuals could either self-nominate and/or be nominated by a third-party. Several candidates had multiple nominations and provided information that attests to the impact these young leaders are making in our industry and their communities through education, volunteerism, entrepreneurship and continued leadership.

Candidates undergo a blind review by our committee so that they can be judged solely on the merits of their applications. All references to firm or company names, individual names, gender or other identifiers are removed prior to being reviewed by the committee. With more nominations received than ever before, the review committee had a difficult task in selecting the twelve award recipients. The individuals that were selected now join a growing and very select group of young professionals to be recognized with this award.

## LOGS Legal Network

For over 40 years, LOGS Legal Network has continuously refined our services to anticipate the needs of the industry and provide unparalleled representation. Our long-standing presence and active involvement within the creditors' rights industry has allowed LOGS to develop knowledge and experience that extends beyond the routine and into the daily operations of the default servicing industry.

To say that Sviatlana is a major contributor to our team is an understatement. Her continuous effort to challenge herself helps the entire team to grow and develop."
